SENTINEL · EXTERNAL TECHNICAL, EMAIL & PRIVACY BRIEFING

# alpine-treuhand-demo.ch

**Target:** https://www.alpine-treuhand-demo.ch/
**Observation Date:** 2026-03-02 17:30 UTC (Fictional Demo Sample) | **Scope:** 25 Passive Public Controls

## VERIFIED CONTROL COVERAGE

**12/25** (49% weighted index)

**High Remediation Priority**

Based exclusively on a single passive HTTP response, TLS handshake, and public DNS lookup — identical to a standard visitor browser without active probing.

**12** Verified · **4** Advisory · **9** Action Needed

## DOMAIN & PRIVACY ARCHITECTURE BREAKDOWN

1. Email & Anti-Spoofing (DMARC/SPF) — 2/4 verified · 38%
2. Swiss nFADP & GDPR Web Privacy — 1/4 verified · 40%
3. Edge & Transport Security (HTTP/TLS) — 2/9 verified · 32%
4. Accessibility (EAA / WCAG 2.1 AA) — 3/4 verified · 73%
5. Technical SEO & AI Discoverability — 4/4 verified · 100%

## KEY TECHNICAL OBSERVATIONS & BUSINESS IMPACT

| STATUS / CONTROL | OBSERVED TECHNICAL EVIDENCE | OPERATIONAL, DELIVERABILITY & REGULATORY IMPACT |
|---|---|---|
| ACTION NEEDED<br>EML-01 | **DMARC Anti-Spoofing Record & Policy**<br>No _dmarc.alpine-treuhand-demo.ch TXT record found in public DNS. | External attackers can send forged emails and fake invoices appearing to come from @alpine-treuhand-demo.ch. |
| ACTION NEEDED<br>PRV-01 | **Remote Google Fonts IP Leak (Schrems II / nFADP)**<br>Page HTML loads fonts directly from fonts.googleapis.com / fonts.gstatic.com on initial load. | Automatically transmits visitor IP addresses to US servers before consent (Swiss nFADP Art. 6 & 16 / GDPR Art. 44). |
| ACTION NEEDED<br>SEC-02 | **HTTP Strict-Transport-Security (HSTS)**<br>Missing 'Strict-Transport-Security' response header. | First-time visitors on public Wi-Fi are vulnerable to SSL-stripping / downgrade interception. |
| ACTION NEEDED<br>SEC-03 | **Content-Security-Policy (CSP)**<br>Missing 'Content-Security-Policy' response header. | Browser permits execution of injected third-party scripts or form-skimming attacks (XSS). |
| ACTION NEEDED<br>SEC-04 | **Anti-Clickjacking Protection (X-Frame-Options)**<br>Neither 'X-Frame-Options' nor CSP 'frame-ancestors' header is set. | Website can be embedded inside a transparent iframe on third-party domains. |
